2023-24 360° Video Booth Package Pricing

***Packages shown with optional upgrades*

WHAT IS A 360° VIDEO / PHOTO BOOTH?

360° photo booths are actually video booths featuring a camera on a long metal arm that rotates around a platform where guests stand, pose, or dance. The end result is a slow motion video, boomerang, or a regular video that has professional production quality. These videos can also have a logo or overlay applied to them to make your event unique. Videos are ready for sharing to any social media platform or saving to your own device in a matter of moments!

WHY SHOULD I CONSIDER A 360° BOOTH FOR MY EVENT?

There are several reasons to consider a 360° photo booth for your event. These include providing a unique and memorable experience for guests, creating shareable content for social media, increasing brand awareness, and standing out from competitors.

HOW MANY PEOPLE CAN BE IN A 360° BOOTH VIDEO?

Our 360° booth platforms which are just shy of 46" are large enough to accommodate up to 1300lbs or 5-7 people in one video shoot.

HOW DO GUESTS GET A COPY OF THEIR VIDEOS?

The individual videos are available mere moments after the recording has stopped. We can share videos via a QR code, email download, or when requested prior to the event, a recordable media disc such as USB or SD for the client to share.

PRICING: \$1,200 for your entire event *(ask for details)*
