2025-26 360° Video Booth Pricing

WHAT IS A 360° BOOTH?

360° booths are video booths featuring a camera on a long metal arm that rotates around a platform where guests stand, pose, or dance. The end result is a slow motion video, boomerang, or a regular video that has professional production quality. We can also apply a logo or overlay to the video to make your event unique. Videos are ready for sharing to any social media platform or saving to your own device in a matter of moments!

WHY SHOULD I CONSIDER A 360° BOOTH?

There are several reasons to consider a 360° photo booth. These include providing a unique and memorable experience for guests, creating shareable content for social media, increasing your fun factor, and standing out from all of the other events you have ever attended.

HOW DO GUESTS GET COPIES OF THEIR VIDEOS?

The individual videos are available mere moments after the recording has stopped. We can share videos via a QR code, email download, or when requested prior to the wedding, a recordable media disc such as USB or SD for the client to share.

HOW MANY CAN BE IN A 360° BOOTH VIDEO?

Our 360° booth platforms which are just shy of 46" are large enough to accommodate up to 1300lbs or 4-7 people in one video shoot.

360° Booth starts at only \$250 per hour (2 hour minimum) -or- only \$800 for 5hr wedding reception

Our 360° Booths include: Video recording platform, video display, stanchions, props, unlimited videos, customized overlay or logo, and a booth attendant.

Shown with optional "Attention Grabbing" LED illuminated light sticks (\$50)
