Complete LOVE Package

This package was designed for those looking for a larger selection of dance lighting similar to our “Diamond Package” but with a compact design. A perfect fit for smaller more intimate venues. This package includes a micro uplighting package for the DJ booth, a standard monogram, and upgraded white slim speakers with a 15” subwoofer. This will give you a super elegant look as well as a full concert quality sound with the added bass. This lighting package is super bright and is highly recommended for tent venues and outdoor settings although it can be used indoors where space is limited. The lighting effects include two moving heads with multiple colors and designs that will move all over your dance area covering it with shapes and colors. It also includes color changing LED par lights to flood your dance floor, walls, or ceiling with color. The two derby lights will give your dance floor the club ambiance you want, filling the dance area with small beams of multi-colored light that dance to the music. The green and red star galaxy laser will make your venue appear to have stars on the ceiling. To top off the lighting effects it also has a white and ultraviolet light flood effect that will make your dancers and dance floor glow with vibrant color.

(min. space required 12'wx6'd)
